Art Unit: 1752

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to the following:

1. (Previously Presented) A method for forming an azo colorant, wherein a coupler having a leaving group at a coupling position thereof and a diazo compound are used, and the method has a faster coupling reaction rate constant, measured by mixing equivalent amounts of an ethyl acetate solution containing an 8 x 10⁻⁵ mole concentration of the diazo compound and an ethyl acetate solution containing an 8 x 10⁻³ mole concentration of the coupler and a base with a stopped flow measurement device and by measuring change over time of an absorbance of the produced colorant and applying the resultant value to the following formula (1), than an azo dyeforming reaction between the diazo compound and a coupler having a hydrogen atom at a coupling position thereof:

 $D\{colorant\}/dt = k \{diazo compound\} formula (1)$

wherein k denotes the coupling reaction rate constant (s⁻¹), t denotes time (s), {colorant} denotes a mole amount of the produced colorant, and {diazo compound} denotes an initial mole amount of the diazo compound (mol).

Applicants have overcome the remaining rejection under judicially created doctrine of obviousness type double patenting over claims 2-17 of U.S. Patent No. 6,346,359 with a proper Terminal Disclaimer.

Claims 1-12 and 21-28 were previously indicated to be allowable over the prior art of record.

Because none of the references of record disclose or render obvious the claimed invention, claims 1-32 are seen as allowable over the prior art of record and passed to issue.

Art Unit: 1752

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance"

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Chu whose telephone number is (571) 272-1329. The examiner can normally be reached on Monday - Friday from 9:30 am to 6:00 pm.

The fax phone number for the USPTO is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571) 272-1700.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PMR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
